DBP/USPS-30 In the past year or two the Postal Service has reduced the accessibility of access to the entry of various categories of mail at the Bulk Mail Entry Units [BMEU] throughout the country.

[a] Please advise the facilities in New Jersey that now permit the entry of Bulk Mail at their facility.

[b] Please confirm or explain that all other New Jersey facilities no longer permit the entry of Bulk Mail at their facility.

[c] Please discuss the reduction of BMEUs that have occurred in the other 49 states.

[d] Should the Northern New Jersey Metro P&DC consolidate its operation to the DVD P&DC as proposed, will a BMEU be maintained at the NNJ Metro BMEU?

DBP/USPS-31 One of the requirements in the consolidation of processing plants is to conduct a public hearing with respect to that specific proposal.

[a] Please advise the individuals and/or organizations that are required to be notified of the details of the public hearing. For a generalized category of individuals, such as the Mayor of a municipality, please provide specific details on the requirements of which Mayors must be notified.

[b] Please advise how members of the general public will receive notification of public hearings so as to be able to attend and make comments.

[c] Is there a requirement to post a notice of the public hearing in all of the associate offices served by a given processing facility? If not, why not?
